NOTICE TO BIDDERS

Please be advised that this document serves as Addendum 1 to the RFP 6614 ACES Afterschool Care. The following update by Guilford County Schools (GCS), please see below.

1. Section 5, Page 8; Regarding reporting to GCS, we many options and formats we're able to deliver. Are there specific formats required that you'd like to see? **A. The district will require a variety of reports on enrollment, financial, and other information. We do not have a specific format for those reports, it will just be necessary that the vendor selected be able to have dynamic reporting that will meet our needs. That is, if the vendor doesn't currently offer reporting on an area we will need, they are willing to configure software or programming so we can have what we need to run the program effectively.**
2. Section 5, Page 9; For the Budget Code and School Name, we are able to create separate "Schools" in our system that can be named whatever you'd like. The Budget Code, is that just a unique numerical value assigned to each "School?" If so, we're good, just wanted to double check. **A. Yes, the "school number" is part of a 19-digit budget code.**
